Sabbir Ahmed

EEE Undergrad

sahmedeee7@gmail.com 📞+880 1989-181983 linkedin.com/in/sabbirahmed360 github.com/SabbirLab

ABOUT

Motivated EEE student from United International University, interested in Embedded systems, IoT, Robotics, Analog circuit design, VLSI, Renewable energy. Excited by the challenge of innovatively solving real world engineering problems, and experienced in academic/research projects with a team-oriented mindset; continuously learning.

EXPERIENCE

Electrical Sub-Team Member

UIU Mars Rover Team | 2024-2025

Assist in design, development, test and integration of rover electrical systems, and work as a member of multi-disciplinary teams to build and develop reliable rover subsystems. Help in international rover competition hardware validation, troubleshooting, research and technical problem solving. Along with the team, won the University Rover Challenge (URC) 2025 to become the Best Asian Team for the fourth consecutive year and also had a good performance in the Anatolian Rover Challenge (ARC).

Batch Ambassador

Dept. of EEE, United International University | 2024-2026

Was the Batch Ambassador for EEE Day 2024, liaising with faculty members and students to help organise and execute this event. Enhanced event activities, promoted communication and collaborated effectively to ensure successful departmental program organization.

EDUCATION

Bachelor of Science (B.Sc.) in Electrical and Electronic Engineering (EEE)

United International University | 2024-present

Diploma Engineering in Electrical Technology

Gopalganj Polytechnic Institute | 2018-2022 | CGPA : 3.77/4.00

SKILLS

Microcontrollers · MATLAB & Simulink · Research & Technical Documentation · Internet of Things (IoT) · Analog Circuit Design · C & Python(basic) Programming · Teamwork & Communication · Hardware Testing & Troubleshooting
